# Lamberts Glass

Made for the possibilities of light.™

- ◆ The finest mouthblown glass from Lamberts
- ◆ The choice of 500+ colors from Bendheim
- ◆ Perfect partners for your project

"As a medium for artistic expression, Lamberts mouth-blown glass is unsurpassed. Its inherent structure and nuanced palette have made it my first choice for colored glass in all of my work. Bendheim sold me my first sheets of Lamberts Glass over 20 years ago (while I was still an intrepid student at the Rhode Island School of Design!) Over the years, they have consistently supported and encouraged my work. As a serious artist in glass, I have always chosen Lamberts for its seemingly inexhaustible ability to express my vision."
