STAINED GLASS ASSOCIATION OF AMERICA

SGAA Air Monitoring Program

Please find enclosed information about the SGAA Air Monitoring Program. The Program is for Members only and scheduling is on a first come, first serve basis.

A General Information form is enclosed. It is designed to help you understand the program and decide how much testing media and how many pumps you need. After reviewing this, you are then ready to fill out the Request Form with the appropriate information. The next step is to sign the lease agreement, leaving the dates blank. The lease agreement will be signed, dated and returned to you after you have been entered on the borrower's schedule. The credit card deposit on the pump(s) will be held and only submitted if the pump(s) is not returned.

Once you have decided on the testing media and pump(s) you will need to return your request form and the signed lease to the address above. A video demonstrating the process will accompany your testing kit.

If you have any questions, please don't hesitate to call me at 800.438.9581.

Sincerely,

Katei Gross
Executive Administrator
